THE VIKINGS ARRIVED IN 866AD, WHEN WILL YOU GET THERE?
FREE ADMISSION FOR A YEAR WITH YOUR ADMISSION TICKET
DISCOVER COPPERGATE
Take hold of the past and explore the excavations which first unearthed the Viking-age city. The remains of 1,000-year-old houses are revealed beneath your feet, objects taken from the excavations are explored, and Viking-age timbers are brought before your eyes.
New audio and video displays help you to investigate all of the information gathered from the 5-year-long dig at Coppergate and piece together the jigsaw of where the Vikings came from, why they came here, how they lived and died, and where they travelled to.

EXPERIENCE THE REAL THING
At JORVIK Viking Centre you are standing on the site of one of the most famous and astounding discoveries of modern archaeology. Between the years 1976-81, archaeologists from York Archaeological Trust revealed the houses, workshops and backyards of the Viking-age city of Jorvik, as it stood 1,000 years ago.
These incredible findings enabled them to build the JORVIK Viking Centre on the very site where the excavations had taken place, creating a groundbreaking visitor experience that enables you to experience life in Viking-age York.

EXPLORE THE VIKING-AGE CITY
As you travel around the Viking-age city of Jorvik aboard our state-of-the-art time capsules you will encounter the Old-Norse-speaking citizens, see inside their houses and back yards, experience a blast of smoke from the blacksmith’s furnace and enjoy the smell of home-cooked stew inside the home of our amber worker.

You are in JORVIK
JORVIK has always been at the cutting edge of historical and archaeological presentation but now, with the new developments, even more so. Even if you have been before, you have to come again.
Time Team’s Tony Robinson

Investigate Coppergate
Recent studies on two human skeletons (one male and one female) from the Coppergate dig show how the Vikings of Jorvik lived, what diseases and afflictions they suffered from, what they ate and even what they looked like.

Artefacts Alive
Our four holographic Viking ghosts introduce you to 800 Viking-age finds and explain how some of these items were used in everyday life.

The End of the Vikings?
The final battles of the Viking Age in York are highlighted along with skeletal remains showing battle wounds, weapons used in battle and the mix of cultures that survived in York after the Viking Age ended in 1066.
